

Landfill Disposals Tax Community Scheme – Round 1**Grant Awards**

Organisation	Theme	Location	Project Description	Grant Awarded
Amphibian and Reptile Conservation Trust	Biodiversity	Flintshire	Connecting wildlife for people This project will take place within four nature reserves that are located in the urban town of Buckley, Flintshire. The project will bring people and wildlife together through habitat enhancement, creation, management and monitoring. Opportunities will be provided for people of all ages and abilities to volunteer their time to improve the nature reserves while learning bespoke skills and knowledge of the rare species that inhabit these reserves. Engagement events, talks and training will also be provided as part of this project.	£46,831

Betws Family Centre	Wider environmental enhancements	Carmarthenshire	Betws Families Together <p>The project will enhance the outdoor space at Betws Family Centre so that parents and children can gain skills in gardening and growing their own food and can be more physically active.</p>	£8,250
Ceredigion County Council	Wider environmental enhancements	Ceredigion	Access improvements at Pendinas Hillfort, Scheduled Ancient Monument and Local Nature Reserve <p>Provide improved access to a site of historical and cultural importance. Improvements to the infrastructure such as path widening and resurfacing in order to increase access to a greater proportion of society, targeting barriers to use and meeting the needs of those with protected characteristics under the Equalities Act.</p>	£49,999
Cwmtwrch RFC	Wider environmental enhancements	Cwmtwrch, Swansea	Cwmtwrch RFC Community Hub <p>Improve community facilities at Cwmtwrch RFC, to create a warm, accessible, comfortable facility, which will provide opportunities for the community to meet and socialise. We want to create a Hub for the community, to engage with its residents, create social inclusion, improve health and well-being and provide access to services.</p>	£49,999

FRAME (Furniture Recycled and Managed Effectively)	Waste minimization and diversion of waste from landfill	Pembrokeshire	Community Fridge & Food Waste Project Funding will enable us to recruit a Community Fridge & Food Waste Co-ordinator to co-ordinate, administer the project and prepare and cook waste food for participants at FRAME acting as link with the local community. Funding will enable us to purchase a van to collect out of date foods from waste food suppliers.	£43,599.92
G2G Communities CIC	Waste minimization and diversion of waste from landfill	Denbighshire	RHYL (Recycling Helps You Live) - A better life More recyclable waste in Rhyl area will be recycled (measured and reported) decreasing waste to landfill. Community Involvement, with partnership working, will educate residents to recycle effectively locally at 5 mini-recycling centres, (some gaining a Level 1 qualification). Plastic Waste will be recycled directly, 3D printed products produced, providing an income for future sustainability.	£48,000
Greenfield Valley Trust	Wider environmental enhancements	Flintshire	Pathways to the Past Pathways to the Past aims to improve public access at two locations within Greenfield Valley, create a new seating area, clear an area of historic fly-tip waste and take steps to manage future problems through signage, temporary cameras, clean-up days and education /awareness for the benefit of the local community.	£24,500

Groundwork North Wales	Biodiversity & Wider environmental enhancements	Gwynedd	<p>Cam ar y Ffordd: Peblig</p> <p>Cam ar y Ffordd: Peblig aims to develop the pockets of greenspace within Peblig ward in Caernarfon. These will act as 'stepping stones' which will greatly benefit biodiversity of this important residential area, improve the appearance, and provide learning and volunteering opportunities for residents of all ages.</p>	£49,918.80
Gwent Wildlife Trust	Biodiversity	Blaenau Gwent	<p>Silent Valley Woodlands Project</p> <p>To encourage the natural regeneration of rare beech woodland, we will install fencing with a local contractor and volunteers from the nearby community. We will improve accessibility to the site through training sessions and updated interpretation.</p>	£6,300
Keep Wales Tidy	Wider environmental enhancements	Rhymney, Caerphilly	<p>Ysgol Y Lawnt School Grounds Improvement for Environmental Education and Biodiversity</p> <p>A project to transform the school grounds from overgrown and unused scrubby woodland to a space used for education and outdoor activities to improve the well-being of the pupils and biodiversity. Planning and delivery will involve the school, parents, and local community volunteers.</p>	£10,638.45

<p>Life Leisure Trust T/A Aneurin Leisure</p>	<p>Waste minimization and diversion from landfill</p>	<p>Tredegar, Blaenau Gwent</p>	<p>Parc Bryn Bach recycling scheme</p> <p>The aim of the project will be to involve the local community and general public to create a more welcoming and green space at Bryn Bach Park. The intention is through the grant money to implement recycling bins within the park grounds and visitor centre of Bryn Bach Park.</p>	<p>£17,233</p>
<p>Menter Mon</p>	<p>Biodiversity</p>	<p>Anglesey</p>	<p>River Biodiversity Project</p> <p>This project seeks to respond to the threat the American Mink poses to biodiversity on Anglesey. Without intervention, this non-native predator could lead to the extinction of water voles on the island, and also impact on colonies of breeding wetland and wading birds. This project will work with communities either side of the Menai Straits and establish a network of River Custodians to implement a programme of monitoring, engagement and control to ensure Anglesey remains a refuge for protected species.</p>	<p>£49,999</p>

<p>Parkfields Community Centre</p>	<p>Wider environmental enhancements</p>	<p>Mold</p>	<p>Sanctuary - making Parkfields a safe and secure Centre for all.</p> <p>Parkfields Community Centre has recently entered a new phase of its existence and needs a newly safe, secure and attractive place for its future.</p> <p>The aim is to upgrade the electricity installation to meet the needs of the day, install security lighting to the car park for the night-time safety of our visitors, repair the damaged pram/cycle shelter, replant the raised beds to provide colour and a wildlife home all year round, pay attention to the trees that mark our boundary, making them safer for all and finally mark this new phase with a new mosaic on the exterior as a sign of hope and new growth.</p>	<p>£11,720</p>
<p>Pembrokeshire County Council</p>	<p>Wider environmental enhancements</p>	<p>Pembrokeshire</p>	<p>Haverfordwest Riverside Green & Blue infrastructure Project.</p> <p>This proposal led by Pembrokeshire County Council, incorporates local strategic plans including Haverfordwest Master Plan, Green Infrastructure Plan and the Active Travel Plan, but includes a number of community identified projects.</p> <p>Improving connectivity in Haverfordwest and its rural hinterlands. It will provide multiple social, economic and environmental benefits.</p>	<p>£31,950</p>

<p>Pembrokeshire County Council 2</p>	<p>Wider environmental enhancements</p>	<p>Pembrokeshire</p>	<p>Withybush Woods Historical Enhancements for Future Generations</p> <p>Withybush Woods, was the Victorian garden of Withybush House now demolished. Owned by Pembrokeshire County Council and located outside Haverfordwest, it receives 36,000 visitors per annum.</p> <p>Identified by the community, re-creating the historical garden including water gardens the project will deliver an exemplar recreational area for visitors/community and biodiversity gain. We hope for achievement of Green Flag in the near future.</p>	<p>£42,000</p>
<p>Powys County Council</p>	<p>Wider environmental enhancements</p>	<p>Powys</p>	<p>Llandrindod Lake Park Environmental Enhancement Scheme</p> <p>To improve quality of place at the Llandrindod Wells Lake Park, the project will create a fully accessible boardwalk and bird hide allowing community access to observe wildlife including interpretation boards. Two new fishing platforms constructed from a recyclable material will also be installed to support green infrastructure.</p>	<p>£49,999</p>

Promo Cymru	Wider environmental enhancements	Blaenau Gwent	Ebbw Vale Institute (EVi : Building a better environment 1.Enhance the sustainability of the building; implementing a number of energy saving and renewable energy measures 2. Engage the community, raising awareness of the themes of environmental enhancement through the delivery of a communications campaign and celebratory event 3. Radnorshire Wildlife Trust	Biodiversity	Powys	Resilient Reserves for the Heart of Wales We will boost ecological resilience within nature reserves of the Wye catchment through restoration, enhancement and management of a range of natural habitats of local and national importance. The project will also encourage local communities to learn more about this precious biodiversity and participate in enlarging and connecting key sites.	£39,610.23
Repair Cafe Wales	Waste minimisation and diversion of waste from landfill	South Wales	Repair & Reuse: 8 New Repair Cafes for South Wales Our Repair Café volunteers fix items destined for landfill, teach repair skills, and encourage upcycling, free of charge. Our five pilot Repair Cafes are a great success. Our project will	£49,976

			create eight new Repair Cafes in priority areas: reducing waste, saving money, teaching repairing, and showcasing upcycling and reuse projects.	
Rumney Forum	Waste minimisation and diversion of waste from landfill	Cardiff	Benthyg - Borrow don't Buy Benthyg is a library of things and skills. Benthyg is a place you can borrow things you need but don't own, donate things you own but don't need and learn skills with your community. Reducing the need to buy new things and learning the skills to fix the things you already have. Diverting waste from landfill and enabling sustainable community development.	£48,558
Ruperra Conservation Trust	Biodiversity	Caerphilly	Hedgerows, heathland and woodland creation and restoration for biodiversity at Coed Craig Ruperra We intend to remove a young conifer plantation on our hillside and restore heathland on top, with native broadleaves below. We'll restore several hundred metres of hedgerow to create wildlife corridors, benefiting pollinators and other native wildlife. We'll involve local volunteers and contractors and provide training in various skills.	£49,700
The Remakery	Waste minimisation	Pembrokeshire	Pembrokeshire Remakery	£49,995.36

	and diversion of waste from landfill		A community project aiming to re-educate the community in repair and mend and contributing to reducing the amount of waste that goes to landfill. Offering workshops, training and opportunities to share skills the Remakery involves the local community in repairing furniture, textiles, computers, mechanical items and home electrical goods.	
The Vincent Wildlife Trust	Biodiversity	Powys, Gwynedd, Conwy, Ceredigion, Denbighshire, Powys	<p>Engaging local communities, and training new volunteers, to ensure that the recovering population of native pine martens survives in the long-term.</p> <p>To help it avoid national extinction, we have recently reinforced the native pine marten population in Wales. To ensure the long-term survival of released animals - and their offspring - this programme will inform local communities, and recruit volunteers, to support the species and monitor its movements across the landscape.</p>	£49,999
Wastesavers Charitable Trust	Waste minimisation and diversion of waste from landfill	Newport	<p>Reuse in the Community</p> <p>This project will increase the awareness of reuse in our local community with the aim of further increasing the number of good quality household items donated from local residents and reused by others, particularly those on low incomes, decreasing the amount sent to landfill.</p>	£42,564.27

Wildlife Trust of South and West Wales	Biodiversity	Swansea	<p>Saving Prior's Meadow - a Haven for People and for Wildlife</p> <p>Saving one of Gower's last remaining historic hay meadows; restoring and enhancing the meadows and surrounding habitats and species. Inspiring communities to appreciate the biodiversity on their doorstep and work towards enhancing it. Ensuring long term management by providing access and infrastructure to allow hay cutting and grazing.</p>	£8,122.92
Wildlife Trust of South and West Wales	Biodiversity	Carmarthenshire	<p>Conserving Carmel's Communities</p> <p>To enhance and make more resilient Carmel National Nature Reserve. To improve habitat condition, enabling wildlife communities to thrive, whilst allowing local communities opportunities for enjoyment and participation.</p>	£46,813.39
The Venture (Wrexham) Ltd	Biodiversity / Waste minimization and diversion from landfill / Wider environmental enhancements	Wrexham	<p>Ail Natur Second Nature</p> <p>The Second Nature project empowers children and young people to adapt and maintain local green spaces through forest husbandry and education. Y Hwb Ailgylchu The Recycling Hub instils best practice whilst encouraging reusability and acting as a barrier to landfill. Exemplify custodianship through positive community activity, such as litter picks.</p>	£47,916.48
