Landfill Disposals Tax Communities Scheme

Grant Awards – Round 2 2018-19

Organisation	Theme	Location	Project Description	Grant Awarded
Anglesey Woods CIC	Biodiversity	Isle of Anglesey	Coedwig Môn Woodland Improvement Project Our project will implement a restoration programme to enhance the habitat value of a neglected woodland. It will involve the local community in the process, through a range of educational and volunteer activities, open days, training programmes and apprenticeships, delivering further cultural, social and economic benefits as a result.	£49,944.80

Bwyd Bendigedig/Incredible Edible Porthmadog	Waste Minimisation & the diversion of waste from landfill	Gwynedd	Waste House Wales - Walipini and Shed The project will create an earth-beamed greenhouse (Walipini), a shed/shelter (from materials that typically end up in landfill), a composting facility and raised beds. This will provide the local community with increased food-growing capacity, an all-year growing space, a shelter and free 'food security' learning opportunities.	£49,999.00
Canolfan Maerdy	Waste Minimisation & the diversion of waste from landfill	Carmarthenshire	Feed people not landfill Canolfan Maerdy will re-use and distribute surplus food from the FareShare Scheme and provide people on low incomes with free or affordable fresh and cooked food and cookery classes to enhance dietary options and reduce waste to landfill. We will hold events to encourage waste prevention and develop community composting.	£49,952.00
Cardiff University Community Gateway	Wider Environmental Enhancements	Cardiff	Grange Pavilion: Coproducing a community facility which nurtures a resilient, welcoming and united community in the most ethnically diverse ward in Wales. The Grange Pavilion project redevelops a neglected Bowls Pavilion and Green as a multifunctional facility for Grangetown's diverse communities, providing civic amenities including multiple spaces for community use and for hire, and a community-focused café and garden for	£49,999.00

			wellbeing, play, education, growing and biodiversity, meeting priorities identified by Grangetown communities. The funding received from LDTCS will enable the growing and biodiversity aspect of this project.	
Conwy County Brough Council	Wider Environmental Enhancements	Conwy	<p>CultureScape Conwy</p> <p>An inclusive sensory greenspace in an historic setting using nature and culture to promote wellbeing and active living - Our Culturescape project will enrich the Bodlondeb Park environment with a sensory garden and outdoor learning and performance space. Accessible native planting, paths, seating, and interpretation will support local biodiversity, increase rainwater capture and tree canopy while providing accessible opportunities to enhance wellbeing through engagement with natural and cultural heritage.</p>	£44,354.00
Friends of Waunarwydd Park	Wider Environmental Enhancements	Swansea	<p>Outdoor play for all in Waunarwydd</p> <p>This exciting project is the first stage of a plan to renew our village play area. We want to bring play for all ages to our village and encourage more children to be active and use our park.</p>	£42,600.00

Higher Kinnerton Community Council	Biodiversity	Flintshire	<p>Nature Wardens</p> <p>Nature wardens is the project to encourage pro environmental behaviour in the community of Higher Kinnerton through a series activities that will see improvements to the natural landscape of the village.</p>	£8,255.00
Llanedi Community Council	Wider Environmental Enhancements	Carmarthenshire	<p>Hendy Community Nature Trail</p> <p>A community all-access nature trail providing access to the flora and fauna of the internationally important Burry Estuary. The project aims to bring a much loved piece of Hendy's green space back in to community usage, complimented by a series of talks and tours by local volunteers.</p>	£43,813.60
St. Catwg's Church Hall – Cadoxton, Juxta and Tonna Parish	Wider Environmental Enhancements	North Port Talbot	<p>St Catwgs Church Hall Improvements</p> <p>The project will improve the facilities on offer at St Catwgs Church hall by providing additional storage facilities and improving the outside area. A path around the Church hall will be resurfaced and the area at the rear of the church will be cleared and enhanced to offer an outside area which can be used by community groups using the hall.</p>	£30,432.00

<p>Swansea Canal Society</p>	<p>Wider Environmental Enhancements</p>	<p>Swansea</p>	<p>Swansea Canal Regeneration - Valleys Heritage Inspiring Our Future</p> <p>The project will transform the Swansea Canal into a premier heritage destination and centre for active recreation. Glandwr Cymru will dredge the canal. Volunteers will renovate historic structures and plant native trees. Future phases will develop leisure and learning opportunities including canoeing, trip boat, floating classroom and high-quality interpretation. The LDTCS grant will contribute to the tree planting and equipment.</p>	<p>£30,746.00</p>
<p>Swansea County Council</p>	<p>Wider Environmental Enhancements</p>	<p>Swansea</p>	<p>Swansea Vale Wetland Nature Reserve Access project</p> <p>The project will replace old wooden boardwalk around the reserve with new recycled plastic boardwalk to encourage more safe use of the reserve. It will also run environmental community events and carry out associated vegetation management and minor ground works.</p>	<p>£48,944.35</p>
<p>The Calon Lan Centre</p>	<p>Wider Environmental Enhancements</p>	<p>Swansea</p>	<p>Calon Lan Centre Grounds Development Project</p> <p>The landscape surrounding the Calon Lan Centre bears great local and national historical significance yet requires significant work in order to sustain the natural environment. This project includes work to reinforce trees, gravestones and monuments,</p>	<p>£40,660.00</p>

			Japanese knotweed control, and professional landscaping including natural meandering pathways for optimum community and visitor enjoyment.	
The Hwb Torfaen/Blaenavon PACT Youth Panel	Wider Environmental Enhancements	Torfaen	<p>Blaenavon Community Hub Environmental Improvements</p> <p>This project will help expand the only community run youth service serving the young people of Blaenavon by creating new holistic meeting and training spaces, refurbishing and making building facilities energy efficient and by minimizing waste through new recycling facilities, meeting the needs of young people and the wider community.</p>	£42,825.55
The Shared Earth Trust	Biodiversity	Ceredigion	<p>Cadw Natur Mewn Cof – Nature in Mind:</p> <p>Will engage with the local community, providing a range of opportunities to connect with nature. Through learning new skills and improving their health and well-being, local people will help to restore and enhance the biodiversity of various habitats at Denmark Farm Conservation Centre.</p>	£49,981.37
The Wildlife Trust of South and West Wales	Biodiversity	Ceredigion	<p>Healthy Reds</p> <p>Will work to save red squirrels in Wales by engaging with local volunteers to undertake habitat and squirrel surveys in Clywedog Forest. Survey</p>	£49,999.00

			results will inform habitat enhancements leading to improvement in the health of the red squirrel population, whilst inspiring communities to appreciate wildlife on their doorstep.	
Tywi Gateway Trust	Biodiversity	Carmarthenshire	<p>The Tywi Gateway - Conservation at the Bishop's Park</p> <p>Working with the local community to restore and re-invigorate the Bishop's Park; enhancing the condition of habitats across the park, improving public access, re-instating the walled kitchen garden and restoring the outbuildings of the Old Bishop's Palace for use as an education and interpretation centre with café.</p>	£46,125.00
Denbighshire County Council	Biodiversity	Denbighshire	<p>North Wales Little Tern Community Conservation Project</p> <p>Wales' only little tern colony nests at Gronant Beach. Denbighshire County Council seeks funding to employ wardens to protect this site, contribute to the scientific study of Little Terns, work together with volunteers from North Wales Little Tern Group to increase public awareness, and conserve this internationally important nesting site. This project will train up volunteers with the skills needed to maintain a sustainable conservation initiative following on from an EU LIFE programme intervention.</p>	£49,999.99
